Reasons for Allowance

Applicants' response to the last Office Action, filed March 28, 2005 has been entered and made of record.

The following is an examiner's statement of reasons for allowance:

Independent claim 1 allowable over the prior art of record. Claims 4-5 depend from claim 1, therefore, are allowed.

Independent claim 1 recites the limitations of : partitioning an image into simple and natural image portions; transforming the natural image portion into wavelet coefficients; decomposing the simple image portion and the wavelet coefficients into bitplanes and arithmetic encoding the bitplanes with a context model. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest references of US 5966465 to Keith et al. and US 5442458 to Rabbani (combined) discloses a wavelet context model encoding . However, they do not teach the limitations of cited above.

In view of the amended claims and the Applicant's arguments , the rejections to claims 1, 4-5 are expressly withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
